MESSAGE FROM THE VICE CHANCELLOR

“ Under the guidance of its Founder-Chancellor Haji Mohammed Iqbal, a philanthropist known for his nobility and spirit of public service, Glocal University is well on course to become one of the finest and most impressive campuses of academic excellence in the country, imparting quality education of global standards attuned with local conditions.

In realising our vision, we set great store by our team of highly competent academics, researchers and members of the administrative staff that is committed and working hard to make our vision a reality.

Prof. (Dr.) B.L.Raina

At Glocal we have designed a unique learning experience that focuses on all-round student development even as it endeavours to equip students with specific knowledge and skill sets. Our endeavour is to produce young men and women who are professionally competent and socially responsible and who would one day blossom into leaders capable of leading our nation along the path of sustainable development, in harmony with Mother Nature.

I have great pleasure in welcoming prospective students to be part of us and embark on an exciting and rewarding journey to academic excellence. ”

24 -25 July

Glocal students attended workshop on Drilling Technology

Students from Department of Petroleum Engineering attended All India workshop on "Emerging Drilling Technology in Oil and Gas Exploration" organized by the Institution of Engineers held at Dehradun. Glocal University was one of the prime sponsors of this workshop. The objective was that of creating awareness about drilling technologies in exploration of oil and gas. Other relevant issues pertaining to drilling operations were also discussed in the workshop.

27 August

Hackathon-Smart Glocal Campus

The Department of Computer Science organized an event 'Hackathon' (also referred to as Hackfest or Codefest). The theme for the event was "Smart Glocal Campus" wherein the technocrat Mr. Ashok Saraf highlighted the importance of being a professional. The objective of the event was to make the students competent and to inculcate in them the ability to think logically and develop coding skills. The discussion called forth various ideas for applications like Glocal Navigator which directs outsiders to reach any part of the campus and Mess Management System (MMS) allowing students to order food beforehand.

20 August

Glocal University gets approval to launch the MBBS Program

The Glocal Medical College, Super Speciality Hospital and Research Center has got approval to conduct M.B.B.S. program for the 1st academic year 2016-17 with the mission of producing top-notch doctors who have a zeal for perpetual learning and are capable of performing well in diverse professional and cultural settings.

SPECIAL LECTURE SERIES

Genealogy of Identities in Kashmir:
The Instances of
Kashmiri Muslims and Pandits

Dr. Toru Tak
Visiting Associate Professor
Centre for South Asian Studies Graduate School of Asian and African Area Studies, Kyoto University (Japan)

Date: August 4, 2016
Venue: Conference Hall (Near VC Office)
Timing: 11:00 am

4 August

Dr. Toru Tak speaks on identity politics in Kashmir

Dr. Toru Tak delivered a lecture captioned 'Genealogy of Identities in Kashmir: The Instances of Kashmiri Muslims and Pandits', where he related the current turmoil in Kashmir with the complexities of identity formation of various prominent collectivities, especially the Kashmiri Muslims and Pandits. Dr. Tak emphasized that the Kashmir issue must be seen as an outright political issue instead of a technical one to be dealt by policy experts. The lecture was followed by an interactive session and the vote of thanks was proposed by Prof. Khalid Anis Ansari.

1 September

National Nutrition Week organized by School of Life & Allied Sciences

On the occasion of National Nutrition Week (September 1-7), the School of Life & Allied Sciences organized an event to discuss the reasons and types of nutritional deficiencies and its therapeutic measures. The students exhibited their ideas with posters, vitamin charts, round table discussions etc. Dr. Santosh K. Singh, HoS gave the vote of thanks.

3 September

Career Counseling in the Department of Petroleum Engineering

Students of SSC from the Glocal School were invited to the Department of Petroleum Engineering to attend a counseling session where they were introduced about Petroleum Engineering and various operations, careers and future prospects in this field. Prof. Utla Kedareswarudu HoD with other faculty members (Mr. Mohd Yusuf, Mr. Vikas Kumar Singh, Mr. Prabhat Ranjan and Mr. Imran) successfully coordinated the event.

16 September

Eid-Ul- Adha Party organized at Glocal University

Eid-Ul-Adha was celebrated with great zeal in the boys hostel. In the party mesmerizing cultural performances were given by the students and faculty members. The Additional Pro-Chancellor Prof. Om Kumar Harsh was the chief guest for the event. A quiz competition was also conducted by Sandeep Singh and Shashank Kiraula. The programme was coordinated by Shrey Kaushal and Shashank Kiraula.

22 September

Wall Magazine Published

The monthly wall magazine was published by the Wall Magazine Club under the aegis of Department of Students' Welfare. It was coordinated by a student team led by Ms. Arooba Ansari and Ms. Rakshanda Ansari under the guidance of Faculty Advisor Mr. Shorabh Rana.

5 September

Teacher's Day celebrated in Glocal University

Teachers' day was celebrated with full vigour at the Glocal University. Students performed glowingly on stage exclusively for their teachers. Students from all departments exhibited their talents and made great efforts to ensure that teachers enjoy every moment. Followed by the cultural programme, students conducted games for the teachers. Towards the end of the program Additional Pro Chancellor and Vice Chancellor encouraged the students with their valued words. The vote of thanks was proposed by the DSW Prof. Khalid Anis Ansari.

17 September

Aadhaar Card Camp organized by the Department of Students' Welfare

10 September

Mr. Qamer Siddiqui (Head HR) from Kingdom of Dreams interacts with students

Glocal Training and Placement Office (TPO) invited Mr. Qamer Siddiqui, Head-Human Resource, from Kingdom of Dreams, Galaxy and Satya. Mr. Siddiqui delivered his lecture on "Current Developing Marketing Trends" to the students of Management, Technology and Law. At the same time he introduced the selection criteria for hiring of employees. The event was coordinated by Mr. Mhd. Waseem and Mr. Shorabh Rana. The vote of thanks was extended by Mr. Azeem Faisal.

25 September

Pharmacy Day Celebrations

The Glocal School of Pharmacy celebrated the Pharmacy Day with the theme "Caring for You". The program was inaugurated by Dr. A. Pandurangan, DoS and he highlighted the role that a pharmacist plays in the society. Various activities such as Debate, Rangoli, Quiz competition and Poster presentations etc. were organized on the occasion. Graduate and Diploma students of the institution actively participated in the event. 'Pharma Rally' was also organized to create awareness about dengue in the nearby villages. A good number of staff members and students participated in the rally displaying banners and placards. Professor Wasiullah, who coordinated the event extended his vote of thanks to all the participants and invited guests.

CAMPUS BUZZ

30 September

Glocal Literary Society organized 'Mastermind Quiz' competition

A Mastermind Quiz competition was organized by the Glocal Literary society at seminar hall. 14 teams from different schools participated in the event consisting of four members each. The first winning team was led by Aayushi Khanna and assisted by Aatif Usmani, Masood and Shadab. The event was coordinated by Sandeep Singh and Shashank Kiraula under the guidance of faculty advisor Mr. Navdeep Kiran. The winning team and the runner ups were awarded by Prof. (Dr.) Om Kumar Harsh. The organizers and participants were thanked by the DSW Prof. Khalid Anis Ansari.

PROF. KHALID ANIS ANSARI DELIVERED A LECTURE IN INTERNATIONAL SUMMER SCHOOL

"Almost always the men who achieve these fundamental inventions of a new paradigm have been either very young or very new to the field whose paradigm they change. And perhaps that point need not have been made explicit, for obviously these are the men who, being little committed by prior practice to the traditional rules of normal science, are particularly likely to see that those rules no longer define a playable game and to conceive another set that can replace them."

GLOCAL TALK

Sonal Shukla, Assistant Professor

Think big! Believe big! Act big! And the results will be big. It was the perception that came to my mind after joining the Glocal University. The university is moving forward most promisingly to become an excellent centre to impart world class education with its exclusive vision to shape the local minds with global standards. The management and faculty of university have joined hands together to achieve this intent in true sense and the university is all set to facilitate students to realize this standard. A huge, well equipped and fully furnished campus, state of the art laboratories, serene surroundings, intellectuals working as faculty members and the most prominently a harmonious relationship among all the stakeholders makes this place an impeccable hub of sharing knowledge. I feel extremely honoured and privileged to be a part of this university and I am sure that in the very near future the Glocal University will shine on the map of India as the best place providing education par excellence.

Yusuff Arikoserere, B. Pharm I Sem

Here I am in India at the Glocal University. Knowing that India has a high ranking in terms of medicine courses, I made my way for studies in India. At Glocal I have been treated in such a pleasing manner and I have also experienced top notch lectures from highly qualified teachers who are dedicated to their work and strongly believe in harnessing the power of knowledge by combining learning with extensive practicals and professional ethics. The professors really reached out to students thus ensuring that international students were involved and understood all aspects of the class which makes the pedagogy of the Glocal University effective. The environment of the campus is very peaceful and well ventilated for academics. I have met so many people and made so many friends. The University was incredibly helpful and welcoming to foreign students. The hostel is lively with many facilities for both international as well as the native students.

CREATIVE CORNER

WE NEED A CHANGE TODAY?

Corruption, illiteracy and poverty

Corruption, illiteracy and poverty
Can you change it into prosperity?
Discrimination on sex, caste and creed,
Is this what the people need?
Devotion and love for the motherland,
Have slipped from the hearts like sand.
Hunger, thirst and irregular power supply,
All promises done on paper are never to apply.
Mera Bharat Mahan is what we proudly say,
but Ghandiji never wanted it this way.
Quality of human resources is still down,
And guess what? We are heading towards the
population crown.
India will be super power we visualize,
But it need sour contribution we never realize.
Money is what people need and feel,
No matter for this they weep and kneel.
Is this what the revolutionaries dreamt?
When they made a courageous attempt.
The freedom of country seems to be lost,
For which they all paid a big cost.
If you have some respect for them,
then a little pain you take,
And answer this question for their sake.
Will you dare to stand up and say?
YES WE NEED A CHANGE TODAY”

by **Namra Momin & Aliza Shahid**
BA LLB I Sem

PLEASE CLOUDS YOU DON'T HAVE TO CRY

Taking a step outside, What does the rain have to hide?
The stars in the sky, Please clouds you don't have to cry.
Let the moon come out and shine,
everything will be fine. You're very frightening,
When it's raining hard and there's lightning.
Thunder takes over, Scaring away that one lucky clover.
Wishing someone can hold me close,
Someone who can hand me a lovely rose
During the biggest storm, My heart aches for a soul
that's warm. Why does standing out in the rain,
Bring back memories that gave me pain?
Does this have a big meaning, Or is this I am only
dreaming, They called me out into the rain,
The clouds that bring my memories pain.
I want to leave, I don't want to believe, That I am
important to this world, I know I am not am just a lonely
boy who sits alone, One who has to live on his own.
Please clouds bring me stars, I don't want to be trapped
behind bars. The wind whisper's your sadness,
Tears that has brought clouds madness.
The rain seems to hide my tears,
But the pain brings back all my fears.
A lost mind a broken heart, One that many have torn
apart. I'm shattered glass never been fixed,
All these emotions got all mixed. Taking a step outside,
What does the rain have to hide?
The stars in the sky,
Please clouds you don't have to cry.

BEING A GIRL AIN'T THAT EASY

Being a girl its not that easy
This world is cold and freezy
All the warmth holds the lord
Won't get any, if you are not bold
Growing here is hard and tough
Our loved are often more than rough
They will speak and mutter around
Flourish in the sky, don't lie on the ground
Glide in the air, try to fly
Knowledge is depth and you will soar high
Solid mind and a loving heart
Not enough for a good start
Need to begin, have to dare
With no more worries and no more scares
You have to handle love and hate

HOW THE WOMEN IN INDIA ARE CHANGING THE PERCEIVED NOTIONS

As we all know that the two pillars of society, men and women are considered to be its edifices but the point is that we have not laid the foundation equally well to let both genders represent on globe. The tragic scenario of our country is that the women are always presumed to be a reason for the fall of building.

The most recent incident which world has witnessed is the wonderful performance that Indian women participants have showcased in 2016 Olympics in Rio de Janeiro, bringing a series of medals to India and placing the country at 66th rank. The squad of Indian contingent with 109 members could bring only two medals and that too in the hands of women: bronze medal to Sakshi Malik in badminton and silver medal to Pusarla Venkata Sindhu.

In education also, over the past few years a better performance of girls than boys can be seen. Girls have been amongst the top rankers in all exams of the country. In competition one of the most difficult exam is UPSC-CSE, where the top rank in 2016 is grabbed by a 22 years old girl Tina Dabi, that too in her first attempt. Once again if we go little back, the top 4 ranks of UPSC-CSE were grabbed by women in 2015 and the topper was Ira Singhal who crossed the milestone at the age of 31 in her 5th attempt. She exhibits her true grit endurance, tenacity, perseverance and will in the form of this achievement as the lady is physically handicapped too. She is suffering from scoliosis resulting in 62% deformity in the body.

It is not yet over, three women from different sectors of society are now selected as fighter pilot for the first time in Indian Air Force.

I measure the progress of a community by the degree of progress which women have achieved.

— Dr. B. R. Ambedkar

Women like Chanda Kochhar and Arundhati Bhattacharya, having a good command in banking sectors are representing India at economic front.

Coming to our homes looking at our working mothers and home makers at the same time, we can find the woman striving for existence in this competitive world. They are the inculcators of good habits in their children and responsible to turn the child into a successful citizen who can gel in with the future world. Even after looking at all these facts, the societies still consider the men prior to women in every aspect. To prove that, have a look at our own homes where the father is anarchist. Well said, "The hands that rock the cradle, rule the world".

The government should also realize that schemes like *Beti Bachao, Beti Padhao* will be successful only and only if both the genders will join hands together.

Moreover, it is said that a society is judged on the basis of how its women are treated. The sex ratio in our country is very poor in some states as female feticide is on rise in the country even after achieving 74% literacy rate by the year 2016.

One of the contributing reason for the plight of Indian women is that the journey of a girl starts with censure and domination by the boys since her birth. Every next thing which should be equally distributed is always compromised with women to let the male have the upper hand. This struggle continues in school, college, work place and even in marriage. Molestation, torture, rape etc. faced by women in this modern era are some of the weird and outrageous things to be seen in such an educated era of human existence.

So, the need of the hour is to work on the foundation and the building will thrive on its own.

Anurag Singh, B.Tech.

WISDOM CHOWK

Blowin' In The Wind

By Bob Dylan*

How many roads must a man walk down

Before you call him a man?

Yes, 'n' how many seas must a white dove sail

Before she sleeps in the sand?

Yes, 'n' how many times must the cannonballs fly

Before they're forever banned?

The answer, my friend, is blowin' in the wind

The answer is blowin' in the wind

How many years can a mountain exist

Before it's washed to the sea?

Yes, 'n' how many years can some people exist

Before they're allowed to be free?

Yes, 'n' how many times can a man turn his head

Pretending he just doesn't see?

The answer, my friend, is blowin' in the wind

The answer is blowin' in the wind

How many times must a man look up
Before he can see the sky?

Yes, 'n' how many ears must one man have
Before he can hear people cry?

Yes, 'n' how many deaths will it take till he knows
That too many people have died?

The answer, my friend, is blowin' in the wind
The answer is blowin' in the wind

* Bob Dylan is the recipient of the 2016 Nobel Prize for literature for "having created new poetic expressions within the great American song tradition". The song was written by Dylan in 1962.

I do not think I ever opened a book in my life which had not something to say upon woman's inconstancy. Songs and proverbs, all talk of woman's fickleness. But perhaps you will say, these were all written by men."

"Perhaps I shall. Yes, yes, if you please, no reference to examples in books. Men have had every advantage of us in telling their own story. Education has been theirs in so much higher a degree; the pen has been in their hands. I will not allow books to prove anything."

— Jane Austen, *Persuasion*

"Children must be taught how to think, not what to think."
— Margaret Mead

"Books permit us to voyage through time, to tap the wisdom of our ancestors. The library connects us with the insight and knowledge, painfully extracted from Nature, of the greatest minds that ever were, with the best teachers, drawn from the entire planet and from all our history, to instruct us without tiring, and to inspire us to make our own contribution to the collective knowledge of the human species. I think the health of our civilization, the depth of our awareness about the underpinnings of our culture and our concern for the future can all be tested by how well we support our libraries."

— Carl Sagan, *Cosmos*

STAFF IN FOCUS : Prof. (Dr.) Om Kumar Harsh

PROF. (DR.) OM KUMAR HARSH JOINS AS ADDITIONAL PRO-CHANCELLOR

August, 2016 added another star to the hierarchy of Glocal University. Professor Om Kumar Harsh, an eminent personality joined the university as Additional Pro Chancellor. Prof Harsh enjoys qualifications like M.Sc. (Physics, India), M.Comp. (Computing & IT, Australia), M.Sc. (Electr Eng-By Research, Australia), Post-Grad Cert (Chem. Instruments, Australia), Ph.D., D.Sc. (Physics, India). Ph.D. (Computer Science), Australia. He is a Member of Rio's International Scientific Council and Former Faculty Member of University of South Australia, Charles Sturt University and Monash University, Australia. He has worked as Post-doctoral Research Fellow at Lucknow University and IIT (Delhi and BHU). Dr Harsh has around 102 research papers to his credit published in journals of International repute or in Conferences. Dr. Harsh has a wonderful academic career of working as an academician in all the three fields namely Physics, Engineering and Computer Science. He has been the Ex-Dean and Professor of Computer Science ECMIT, Dubai, Vice Chancellor of Tantia University, Sri Ganganagar, Group Director of Amritsar College of Engineering and Technology, Director of Hindustan College (Sharda Group) and Dean (Research) of Rayat Bahra University. Dr Harsh has been involved in distance education (including research, guiding, study and teaching) for more than seven years.

Most remarkably, he has done his research work with four internationally recognized scientists: Prof K.S. Srivastava, Professor R.N. Singh, Prof B.K. Agarwal and Professor Martin Green. One of his important achievements came when in a ceremony at the Kanpur University, Ex-President of India and sitting Vice-President, Dr K. R. Narayanan, awarded first Doctor of Science degree to Dr. Harsh in 1990. It should be noted that earlier the Kanpur University conferred an honorary D.Sc. to Professor Sir C V Raman. Prof Harsh spent 17 Years in foreign countries including majority of time in Australia. He has More than 38 years of Academic, industrial and research experience. He has been widely involved with various universities of UK, USA and South Asia for the courses development, articulation agreement and various other academic activities.

His most valuable internationally acclaimed research work has been on Semiconductor Plasma Physics, Software Engineering, Software Reuse and Management, Information Systems and Quality of Education. He has been honoured by various organizations including Brazil's scientific council. He was awarded prestigious "Rashtriya Gaurav Award" which was conferred on Aug 29, 2012 in New Delhi by India International Friendship Society. He was also awarded as "Best Citizens of India" by International Publishing House in recognition of exceptional calibre and outstanding performance.

Dr Harsh has supervised excellent research students who are working in various positions across Australia, India and US. He has also written and edited couple of general articles published in the various magazines and newspapers across the globe.

HONOUR/ AWARDS

LIFETIME ACHIEVEMENT AWARD TO HON'BLE VICE CHANCELLOR PROF. (DR.) B.L. RAINA

It was a moment of pride for the Glocal University that Honorable Vice Chancellor Prof B L Raina was felicitated with the Lifetime Achievement Award during the United Nations World Youth Skills Day Celebrations on 15 July 2016 held in India International Centre, New Delhi. Also, a package for Clean Uttar Pradesh Project has been offered by NICER to the Glocal University for enabling the National Institute of Cleanliness Education to come to our campus with a view to establish an outfit that would facilitate Swachchh Bharat and Swachchh Uttar Pradesh Abhiyan.
